Mindjet
Power Markers™
Version 3

Mindjet Power Markers

Version 3.0.134
Supporting MindManager v8 and v9

Release Notes: April 20, 2011

Note: It is recommended that any previous versions of Power Markers be uninstalled from your system before installing Mindjet Power Markers 3.0

Known Issues: Mindjet Power Markers Build 3.0.134

Issue:	**Modify a Power Markers Template through Template Organizer will generate an error and may cause MindManger to lock up.**
Steps to Reproduce:	Note: Reproducible with MindManager Version 9 for Windows only. 1. MM9 is running 2. Activate Developer ribbon Tab 3. Developer ribbon Tab > Templates > Map Templates 4. Expand Mindjet Power Markers 5. Select any Template 6. Click "Modify"
Actual Results:	An error message may appear and will stop the template from being accessed.
Expected Results:	Template will open for update.
Workaround:	No workaround exists currently. Mindjet is currently investigating this issue, and anticipates having a fix for it in an upcoming release of Mindjet Power Markers.

Issue:	**Mindjet Power Markers French version: When using MindManager version 9, the configure window will not open when clicking "Configure" button on the Ribbon.**
Steps to Reproduce:	1. Run the French version of MindManager Version 9 for Windows 2. From the Ribbon select > View > Mindjet Power Markers 3. Click "Configure" to invoke Power Markers Configure window
Actual Results:	Configure window will not open.
Expected Results:	The Configure window opens up.
Workaround:	Use Hot Lists tab to invoke Configure window.

Issue: **Mindjet Power Markers Installer: Uninstall: Files, folders, registry entries, and any other changes made by the runtime are not removed by the installer.**

Steps to Reproduce: Uninstall Mindjet Power Markers 3.0.

Actual Results: Mindjet Power Markers files, folders, registry entries, and any other changes made by the runtime are not removed by the installer.

Workaround: User will need to remove files and folders that were considered as user data by Mindjet Power Markers.

Issue: **Mindjet Power Markers Uninstall: Templates, Map Parts and Icon are not removed by the installer.**

Steps to Reproduce: Uninstall Mindjet Power Markers 3.0.

Actual Results: Mindjet Power Markers templates and map markers are left behind and the Power Marker icons are still visible in the library after uninstall.

Workaround: User will need to delete the map parts and templates after uninstall.
