WHAT'S NEW & ENHANCED IN MINDMANAGER 25.0

- **Microsoft Planner integration**
  - Turn task management into a visual strategy. Import, create, and sync Microsoft Planner tasks directly within your MindManager maps to streamline collaboration and execution.

- **Microsoft To Do integration**
  - Bring clarity to your daily priorities. Manage Microsoft To Do tasks in your MindManager workspace with smooth two-way updates and a more visual approach to getting things done.

- **Expanded SmartRules triggers**
  - New conditions expand automation flexibility:
    - "Does not Exist" Trigger for Progress, Notes and Properties
  - Property comparison trigger

- **Dutch language support is back**
  - We're pleased to reintroduce Dutch language support in MindManager. Native Dutch-speaking users can once again enjoy a fully localized experience.

- **Improved SharePoint link handling**
  - Working with content on SharePoint/Microsoft Teams just got easier. The SharePoint/Teams "copy link" command now also works with maps that have been saved.

- **Reorganized templates on home screen**
  - The blank templates section has been reorganized and grouped into the categories Mind Map, Flowchart, Whiteboard and Other to better reflect the different map types with their corresponding default topic types that can be created with MindManager.
