MindManager Go Mobile Application Version 1.1

General Information

- MindManager Go lets you view and navigate your MindManager files on your mobile device. See map details with crystal clarity and focus on important information with ease thanks to powerful filtering and search capabilities.
- Send images and text notes to your MindManager desktop with the NEW MindManager Snap capture tool.
- Supports classic and recent MindManager features including task information, properties, formulas, SmartRules, objects, flowcharts and more (see the Supported features section for more info).
- The user interface supports English, French, German, Russian, Simplified Chinese, Japanese, Dutch and Spanish. The language will be selected based on the device's language settings. Map content will appear in the language used to create it.
- The iOS app is available for download through the Apple App Store.
- The Android app is available for download through the Google Play store.

New in Version 1.1

Version 1.1 contains additional new features, quality of life improvements, and bug fixes.

- Added ability to pan and zoom while viewing an attached image or image thumbnail.
- Improved panning and zooming in map view.
- Added support for opening mmap files from other applications for iOS 13.
- Added support for opening files from multiple accounts from the same service (EG two or more SharePoint sites)
- Improved the file browser to remember the last browsed location when returning to the app.

Supported Mobile Platforms

iOS

- iOS versions 11, 12, 13

Android

- Android versions 8, 9, 10

SUPPORTED INTERACTIVE FEATURES

The MindManager Go application has the following interactive features.

File Access

- Browse, search, open, and view files in cloud storage locations
  - OneDrive, Google Drive, Box, Dropbox, and SharePoint Online
  - Requires sign in and authorization with respective cloud storage provider
- Open and view .mmap files attached to emails or received in external applications (EG Slack, Skype, etc.)

MindManager Snap

- Send images from your photo library or camera and text notes to your MindManager desktop with the MindManager Snap tool.
- Requires a MindManager account
- Content is sent to the MindManager cloud where it is accessible in the MindManager desktop application (requires version 20.0 or greater)
  - Drag and drop content sent from your mobile device into your maps.

Navigating & Transforming Content

- Search Map Topic Text and Notes
- Power Filter Menu (Show, Fade, Hide)
- Quick Filter (tap icons, tags, resources, etc. to quick filter)
- Presentation Mode
- Collapse & Expand branches
- Fit Map
- Center Map
- Focus on Topic
- Zoom
- Pan

SUPPORTED FEATURES FOR DISPLAY/VIEW ONLY

For the latest details on what features are supported for display or viewing only see the Browser App release notes at the link below:

FIXED MOBLE APP SPECIFIC ISSUES IN VERSION 1.1

Issue: Large images viewed in the lightbox are cannot be panned and/or zoomed.
Resolution: Fixed.

Issue: Links in the inspector do not work when the link text is tapped.
Resolution: Fixed.

Issue: The app can be used to open files other than .mmap files (Android version only) which shouldn't be possible.
Workaround: Fixed.

Issue: Using the dictation feature in iOS13 to write a text Snap causes the dictation to turn off abruptly
Workaround: Fixed.

Issue: Could not open mmap files using MindManager Go from other apps on iOS13.
Workaround: Fixed.

Issue: The inspector tab UI was difficult to use if the topic had too many types of associated information.
Workaround: Fixed.

FIXED FILE BROWSER ISSUES IN VERSION 1.1

Issue: Last selected folder location is not remembered from previous sessions.
Workaround: Fixed.

Issue: Opening files from Dropbox Business accounts did not work properly.
Workaround: Fixed.

KNOWN MOBLE APP SPECIFIC ISSUES IN VERSION 1.1

Issue:	Links not available on your mobile device do not work.
Workaround:	None at this time.

Issue:	Attached files do not work if they are not .mmap or image files (EG .pdf, .doc, .xls.).
Workaround:	None at this time.

Issue:	The keyboard is not closed when navigating back to the files list from the file search feature. The keyboard is not closed when pressing the X button in the search field.
Workaround:	Close the keyboard manually.

Issue:	Cannot scroll notes by dragging in content area if notes contain an image.
Workaround:	Drag scroll bar instead.

Issue:	The inspector tabs are truncated and behave poorly when a topic with every type of content is selected.
Workaround:	None at this time.

Issue:	The camera & photo access request messages are not localized (iOS only).
Workaround:	None at this time.

Issue:	In some cases switching saved filters on and off in the filter panel can cause the app to become unresponsive for some time.
Workaround:	Use the Filter On/Off overlay to turn saved filters off and/or wait until app becomes responsive again (20-40 seconds).

KNOWN FILE BROWSER ISSUES IN VERSION 1.1

Issue:	Cloud storage locations show all available storage locations for the signed in user instead of a single location (EG multiple sites for SharePoint, all team and personal drives for Google Drive)

© 2019 Corel Corporation

Workaround: Select the desired location from the list to continue.

FIXED & KNOWN RENDERING/DISPLAY ISSUES (HTML5 RENDERING ENGINE)

For more details on fixed and known issues related to map rendering and viewing see the Browser App release notes at the link below:
