MINDMANAGER READER APPLICATION VERSION 4.1

General Information

- The MindManager Reader leverages the rich interactive format available in MindManager. Experience mmap files as animated presentations, expand and collapse branches, view rich content like notes, attachments, links, comments, and more (see the Supported features section for more info).
- The user interface supports English, French, German, Russian, Simplified Chinese, Japanese, Dutch and Spanish. The language will be selected based on the system's language settings. Map content will appear in the language used to create it.

New in Version 4.1

Version 4.1 contains quality of life and bug fixes.

For more details on new features, and other major changes made in prior releases see the “New in Version 4.0” section of the 4.0 release notes at the link below:

http://download.mindjet.com/MindManager_Reader_4_0_ReleaseNotes_EN.pdf

SUPPORTED ENVIRONMENTS

Windows

- Microsoft® Windows® 7: 32-bit and 64-bit
- Microsoft® Windows® 8 and 8.1: 32-bit and 64-bit
- Microsoft® Windows® 10: 32-bit and 64-bit

Mac

- OS X 10.12 or greater

SUPPORTED FEATURES

For the latest details on what features are supported for displaying MindManager files see the Browser App release notes at the link below:

http://download.mindjet.com/MindManager_Browser_Viewing_App_4_1_ReleaseNotes_EN.pdf

Additional Supported Reader Features

File Access

- Browse, search, open, and view files in cloud storage locations
 - OneDrive, Google Drive, Box, Dropbox, and SharePoint Online
 - Requires sign in and authorization with respective cloud storage provider

Large Scale Deployment

- Deploy the reader application to multiple devices at once via command line allowing configuration of certain features.

FIXED FILE BROWSER ISSUES IN VERSION 4.1

Issue: Last selected folder location is not remembered from previous sessions.

Workaround: Fixed.

Issue: Opening files from Dropbox Business accounts did not work properly.

Workaround: Fixed.

KNOWN FILE BROWSER ISSUES IN VERSION 4.1

Issue: Users cannot authenticate to Google Drive in the Reader application due to a change made by Google to the API used by the Reader application.

Workaround: None at this time, the team is working on it and a new version will be available when the fix is complete.

Issue: Cloud storage locations show all available storage locations for the signed in user instead of a single location (EG all team and personal drives)

Workaround: Select the desired location from the list to continue.

FIXED & KNOWN RENDERING/DISPLAY ISSUES (HTML5 RENDERING ENGINE)

For more details on fixed and known issues related to map rendering and viewing see the Browser App release notes at the link below:
