MINDMANAGER SNAP

General Information

- Inspiration and ideas can show up at any time. With MindManager Snap, you'll be ready to grab them! Capture map-worthy content in seconds when you're away from MindManager, then drop it into your maps the next time you open it up — so no on-the-go brainstorm or 2 a.m. 'aha!' ever slips through the cracks.
- Send photos, attachments, links, and notes to the MindManager Snap Queue in the cloud using the following applications:
 - MindManager Go iOS mobile application
 - Available in the Apple App Store
 - MindManager Go Android mobile application
 - Available in the Google Play Store
 - MindManager Snap Windows Desktop Application
 - Installed with MindManager 20.0 for Windows
 - MindManager Snap Chrome Browser Extension
 - Available in the Chrome Web Store
- Organize Drag and drop content from your MindManager Snap Queue to your maps in version 20.0 or greater of MindManager for Windows.
- The user interface supports English, French, German, Russian, Simplified Chinese, Japanese, Dutch and Spanish. The language will be selected based on the system's language settings. Content will appear in the language used to create it.

New in Version 4.2

Version 4.2 contains new features, and quality of life improvements.

- Snap from browser on mobile
 - While viewing a page in the mobile browser users can now send the page as a link to their MindManager Snap queue using the MindManager Go mobile application for Android or iOS.
- Localization improvements

For more details on new features, and other major changes made in prior releases see:

- Options
 - Toggle trash when dragging on or off
 - Trash All

FIXED MINDMANAGER SNAP ISSUES IN VERSION 4.2

N/A

KNOWN MINDMANAGER SNAP ISSUES IN VERSION 4.2

Issue: The MindManager Snap Queue cannot be sorted.

Workaround: None at this time.

Issue: There is sometimes a short delay before content is removed from the Queue after dragging it into a map

Workaround: Wait a moment before dragging additional content. If you need to drag multiple items you can shift + click all the items in the queue before dragging them all in one action.
